

FAMILY STRATEGIC PLAN

2026

Tomas & Claudia

DISCIPLINE → STABILITY → GROWTH

2026

Executive Summary

Priorities

- Debt Reduction (Avalanche)
- Build Cash Buffer
- Apartment Monetization
- Income Growth
- Conditional Travel

Targets

- Debt: \$43K → <\$10K
- Savings: \$13,960 → \$25K+
- ≥1 unit rented by Q2
- Credit cards < \$5K mid-year

Key Risks

- Cash flow overload
- Too many concurrent projects
- Underestimating costs
- Rental delays

Financial Reality

\$13,960

Current Savings

~\$43K

Total Debt

~\$21.4K

Credit Cards

~\$21.8K

Loans

Situation Analysis

Negative Leverage: High-interest debt outpaces any investment returns. Debt payoff is the highest-ROI move available right now.

Action:

Prioritize debt elimination over investing or lifestyle expansion until credit cards are under \$5K.

Mid-Year Decision Gate

Rent vs Hold — decision based on cash position at mid-year review. Risk: Avoid overspending on non-essentials before decision is made.

Plan

Pay minimums on all · Apply \$2K–\$3K/month extra to highest-interest debt first · Credit cards < \$5K by mid-year · Reason: Highest interest = biggest cash leak

Tradeoff

Competes directly with debt payoff —
balance both, don't neglect either.

Approach: Maintain a balanced split — never let savings fall below \$13K while aggressively paying debt. Additional income should go 70% debt / 30% savings until both targets are met.

Certificate of Deposit — Decision

CD Opportunity

- DOP \$100,000 (~\$1,600 USD)
- 3-month term
- ~5.35% APY
- Return: ~\$23 USD net
- Trade-off: Reduced liquidity for 3 months

Decision Gate

ONLY invest if:

- Cash $\geq$ \$20,000
- Debt is stabilized

⚠ Recommendation:

Not a priority now. The \$23 USD return doesn't justify the liquidity risk while debt remains high and savings are still building.

Personal Growth & Income

Tomas

- Q2 — Finish Master's degree
- Q2 — Rebrand professional profile
- Q3 — BRINF client acquisition
- Define monthly revenue target (\$X/mo)

Claudia

- Maintain BCBA certification (no lapse)
- Monitor renewal timeline actively

Key Insight: Income growth is the single variable that accelerates all other goals simultaneously.

Travel Plan — Conditional

Goals: Europe · North Carolina Evaluation

GREEN

CC < \$5K & Savings ≥ \$25K

Full trip approved · Budget \$3K–\$6K

YELLOW

CC \$5K–\$10K

Reduced trip · Strict budget cap

RED

CC > \$10K

No travel — zero exceptions

Faith & Impact — Mateo 5th

Scope — 1st Floor Renovation

- Focus: Key improvements to 1st floor
- 2nd floor: On hold until debt stabilizes
- Milestone-based completion tracking

Constraint

Invest only after debt is stabilized. This initiative is important but cannot compete with financial stabilization in 2026.

Financial Guardrails

No Travel

Unless traffic-light conditions are met

No New Lifestyle Debt

Zero new non-essential credit charges

Minimum Cash \$15K

Never let savings drop below this floor

Extra Income → Debt

100% of windfalls go to debt first

Owner: Both • Review Cadence: Monthly

Execution System

01 Tracking

Debt balance · Savings level · Project milestones — updated weekly

02 Monthly Financial Review

Full P&L snapshot · Compare actuals vs targets · Adjust spending categories

03 Quarterly Strategy Update

Reassess priorities · Decide on rent vs hold · Travel gate review

Tool: Simple dashboard/spreadsheet — shared, updated by both owners each month.

Risk Analysis

Cash Flow Overload

Too many obligations hitting simultaneously

Mitigation:

Monthly P&L review · Pause low-priority spend immediately

Project Overcommit

Both apartments active + personal goals at once

Mitigation:

Strict phase-gating · One project milestone before starting next

Unexpected Expenses

Renovation surprises or appliance failures

Mitigation:

\$15K cash floor · No new commitments without buffer in place

Rental Delays

PDLC2 or VITA takes longer than 60 days

Mitigation:

Pre-stage before listing · Have backup plan for long-term rental
